

PLENTY OF FRESH AIR:

Most powerful compact ventilation unit in its class, delivering up to 58 m³/h.

MAXIMUM FLEXIBILITY:

A wide range of variants for applications from the basement to the attic.

RELIABLE SENSORS:

Pressure stabilizer for protection against high wind pressure and a temperature sensor to prevent cooling in winter.

SUSTAINABLE:

Backed by a 5-year manufacturer's warranty.

IV-SMART+ COMPACT VENTILATION

COMPACT. POWERFUL. VERSATILE.

More fresh air, more comfort, more possibilities: The iV-Smart+ from inVENTer delivers an airflow rate of up to 58 m³/h, making it one of the most powerful compact ventilation units in its class. Quick and easy installation saves valuable time on site, while intelligent frost protection sensors and an integrated pressure stabilizer reliably protect against cooling and high wind pressure. Available in various versions, the iV-Smart+ adapts flexibly to almost any installation situation – from basements to attic spaces.

TECHNICAL DATA

Wall opening Ø [mm]	180
Air flow in heat recovery mode [m ³ /h]	8,5 – 29
Air flow in exhaust mode [m ³ /h]	17 – 58
Heat recovery [%]	87
Sound pressure level, 2 m [dB(A)]	11 – 34
Standard sound level difference [dB]	43
Power consumption [W]	1 – 3
Energy efficiency class	A+ / A
